Professional Summary

Dynamic and versatile Senior 3D Animator, Environment Artist, and 3D Team Lead with over 13 years of professional experience across gaming, marketing, and live entertainment. Expert in both stylized and semi-realistic aesthetics, with a proven track record of leading creative teams, designing cinematic environments, and mastering Unreal Engine pipelines. Unique expertise blending high-end technical execution with market research to deliver data-driven, high-converting UA (User Acquisition) content that aligns perfectly with brand identity.

Education

2008 – 2010

| SAE Institute Jordan

Diploma in Animation & Interactive Graphics

2016 – 2017

| Animation Mentor

- Course in Animation Basics
- Course in Body Mechanics
- Course in Advanced Body Mechanics
- Course in Introduction to Acting

Work Experience

Lead 3D Artist

2018–2025 | Babil Games

- Led animation and 3D teams for 3+ years.
- Produced polished character animation and gameplay locomotion sets.
- Worked with keyframe and mocap, improving clarity and natural motion.
- Integrated and refined animations directly inside Unreal Engine.
- Contributed to animation systems including transitions, blend spaces, and state logic.
- Directed cinematic shots and camera animation using Sequencer.
- Mentored junior artists and maintained quality standards.

Lead 3D Artist

2010–2013 | Taktek Games

- Contributed 3D assets, modeling, texturing, rigging, animations, and visual polish for multiple mobile and casual game titles.
- Worked on My Marbles, a title later recognized and published by Chillingo.
- Collaborated with designers and developers during early prototyping phases to establish visual style and gameplay clarity.
- Built strong foundational skills in animation, timing, asset preparation, and engine integration.

Notable Projects & Live Events

Visual DJ / Live Performance Artist | Ayla Aqaba (2019)

- Conceptualized, animated, and mixed real-time projection mapping and large-screen environmental visuals for a major live music event, sync'd dynamically to the performance.

Visual DJ / Live Performance Artist | Dopamine Amman (2018)

- Conceptualized, animated, and mixed real-time projection mapping and large-screen environmental visuals for a major live music event, sync'd dynamically to the performance.
- worked as an event manager, organizer and marketing

Software Expertise:

- Maya (13+ years), Adobe Photoshop (13+ years), Unreal Engine (8+ years), Substance Suite (8+ years).
- Core Competencies: Senior 3D Animation, Storyboarding, Lighting & Look Dev, Environment Art, Real-Time Cinematic Pipelines.
- Leadership & Strategy: 3D Team Leadership, Marketing Research, User Acquisition (UA) Video Strategy, Performance Creative Direction.

Strengths

- Strong eye for movement clarity, player feedback, and animation readability
- Deep understanding of body mechanics, weight, timing, and natural motion
- Comfortable iterating with design & engineering to improve gameplay feel
- Experienced in real-time animation implementation inside Unreal Engine
- Effective communicator with team-focused leadership experience
- Passionate about elevating animation systems and contributing ideas beyond assigned tasks

Skills

- Animation
- Team Leadership
- Fast Skill Acquisition
- Time Management
- Growth Mindset
